Decking **Profiles**

Bamboo Deking

Elevate your outdoor space with Bamboo wood decking boards, featuring a deep tone that creates a contemporary and inviting atmosphere. These boards are crafted through an innovative process where bamboo fibers are intensely compressed and thermo-treated. This advanced technique provides the material with outstanding resistance to weather conditions and UV rays.
The treated bamboo is exceptionally hard, rivaling even the most durable woods, ensuring the longevity of your decking-making it an ideal choice for high-traffic areas.

Caramel • Teak • Black Chocolate • Coffee

Caramel

Caramel is a warm, rich brown tone that brings a natural and sophisticated character to outdoor spaces. Its earthy caramel shade creates a timeless look that blends beautifully with modern and traditional architectural styles, making it an elegant choice for terraces, balconies, pool areas, gardens and hospitality spaces.

Teak

Teak is a warm, natural brown tone inspired by the timeless beauty of teak wood. Its rich and earthy appearance adds warmth and sophistication to outdoor spaces, creating a classic yet contemporary look. Ideal for terraces, balconies, pool areas, gardens and hospitality projects, Teak blends beautifully with a wide range of architectural styles.

Black Chololate

Black Chocolate is a deep, rich brown tone with subtle dark undertones, creating a bold and sophisticated look for outdoor spaces. Its luxurious chocolate-inspired shade adds warmth and depth while complementing both modern and contemporary architecture. Ideal for terraces, balconies, pool areas, gardens and hospitality projects, Black Chocolate brings a distinctive and elegant character to any outdoor setting.

Coffee

Coffee is a rich, warm brown tone inspired by the natural depth and warmth of coffee. Its earthy shade creates a refined and inviting look, adding warmth and character to outdoor spaces. Ideal for terraces, balconies, pool areas, gardens and hospitality projects, Coffee offers a timeless finish that complements both modern and traditional designs.
